

CROMA WHITEPAPER

Empowering Communities through Art, Memes, and Blockchain

Introduction

Croma (CRM) is a meme token born from a profound passion for empowering communities, expressing authentic art, and embracing the vibrant, unpredictable spirit of the internet. Croma champions creativity, transparency, and collective strength.

Executive Summary

Croma was created by the community and for the community. Built on trust, real contribution, and transparency, Croma pioneers the future of Web3 infrastructure through CromaChain.

Vision and Mission

Vision: Establish a resilient, inclusive, and competitive ecosystem for memes and art. Mission: Democratize blockchain access, empower artists, build quantum-resistant infrastructure, and maintain transparency in all operations.

Key Features

- Transaction-Free Trading - Full Decentralization - AI-Powered Tools - Quantum-Resistant Security

Tokenomics

Croma has carefully designed its token distribution model to prioritize fairness, transparency, and sustainability. The total supply of CRM tokens is fixed and allocated as follows:

Category	Percentage	Amount (CRM)
Presale	52.6%	500,000,000
Liquidity	7.9%	75,000,000
Marketing	7.9%	75,000,000
Mining Locked	31.6%	300,000,000

CromaChain Ecosystem

CromaChain is a next-generation modular Layer 2 protocol built to redefine Web3 infrastructure. Features include zk-STARKs, DAG Scheduler, zkEVM, EigenDA, and post-quantum cryptography.

AI Builder Platform

Zero-code platform enabling token and website creation with natural language, real-time audit integration, and automated backend deployment. Revenue collected in CRM, with a 50% burn mechanism.

Art Platform

A decentralized hub for artists, collectors, and enthusiasts. NFT minting, trading, and exhibition powered by CRM and integrated with AI Builder.

Automatic Staking

CRM holders will enjoy automatic staking rewards by simply holding tokens in their wallets. Promotes long-term holding with consistent incentives.

Security & Transparency

Croma embraces a fully transparent approach: no hidden team allocation, renounced smart contracts, and community governance. Security reinforced with post-quantum cryptography and audits.

Exchange Listings

CRM will be listed on both decentralized (DEX) and centralized exchanges (CEX) post-presale. Liquidity reserved for smooth trading and stable growth.

Launch Timeline

Phase 1: Airdrop Phase 2: Presale (Q3-Q4 2025) Phase 3: Art Platform Launch Q2 2026: Public Testnet

Risks & Disclaimer

Participation in Croma involves risks including market volatility, regulatory uncertainties, and technical challenges. Investors should conduct independent research and seek advice before participating.
